Welcome to the Irish Skipper Expo 2023

THE SKIPPER TEAM ARE PROUD TO BE BACK AT THE UL SPORT ARENA

A very warm welcome to Irish Skipper Expo 2023! Returning to the superb exhibiting hall at the UL Sport Arena, this year marks the true reunion of the industry, free from all restrictions.

We are thrilled to bring you a sell-out show this year, with an astounding 34 first-time exhibiting companies added to the list of over 140 companies, highlighting the enthusiasm that remains in the industry despite a tumultuous few years.

The resilience and dynamism of the fishing industry, and its ability to adapt, never ceases to amaze me. Irish Skipper Expo 2023 provides the perfect platform to do business, to network and to socialise. It will be a place where the industry can reinvigorate itself and look forward to the

future with renewed confidence.

Fishing is one of Ireland's great industries, supporting coastal communities and providing a food resource that is renowned around the world for its premium quality and we look forward to providing an environment for our young people to learn and continue to evolve in the industry.

Sponsored by Irish seafood development agency, **BIM**, and leading marine insurer **Arachas**, I am confident that Irish Skipper Expo 2023 will prove a fantastic showcase for the commercial fishing industry.

I wish you all a successful and enjoyable Irish Skipper Expo 2023.

Sharon Boyle, Commercial Fishing Manager

SET YOUR FUTURE COURSE

at the Irish Skipper Expo

BIM is here to help you navigate any challenges, and chart a course for a prosperous future.

The Irish Skipper Expo is the first port of call, showcasing the resilience and dynamism of the Irish seafood industry, and offering you the right conditions to do business, network and socialise.

After the turbulence of recent years, it's your chance to reinvigorate yourself and look forward to the future with confidence.

Show sponsor, BIM, prepare for a landmark Irish Skipper Expo

CAROLINE BOCQUEL, CEO,
BORD IASCAIGH MHARA (BIM)

I AM DELIGHTED to return to the UL Sports Arena along with my BIM colleagues, for the eagerly awaited Skipper Expo 2023. BIM is the key sponsor at the event and will also exhibit here with funding from *European and Maritime, Fisheries and Aquaculture Fund* (EMFAF). When we gathered here last March it was with a sense of appreciation and gratitude that the worst of the Covid-19 pandemic had passed, with restrictions lifted.

With that came some optimism for the sector, as it continues to evolve. While the environment and markets within which the seafood industry operates have changed and become more challenging in recent years, there are significant supports and services to be availed of.

These include schemes linked to the Brexit Adjustment Reserve (BAR) Fund and recent launch of the €258M European Maritime, Fisheries and Aquaculture Fund (EMFAF) programme. The Government's Seafood Taskforce – set up to help the seafood sector and coastal communities

"Fresh challenges have emerged from the ongoing conflict in Ukraine – including a major spike in the price of marine diesel last year – along with significant inflation, and changed consumer habits post pandemic."

CAROLINE BOCQUEL

respond to the challenges posed by Brexit – made specific recommendations to leverage Brexit Adjustment Reserve funding for this purpose. You will find more information on these at our stand and online at **www.bim.ie**

The EMFAF Programme aims to support a diverse range of activities within the marine area. For fisheries, this includes on board capital investment and support for sustainability initiatives, innovation in fishing gear and methods, supports to the inshore fleet, and training and marketing.

For aquaculture it will involve support for capital investment in aquaculture sites, innovation and research to develop technology and enhance

knowledge, advisory services, training and marketing. For processing meanwhile, it will support capital investment in seafood processing enterprises, enhanced energy efficiency, and drive innovation to develop new products and increase sustainability.

Fresh challenges have emerged from the ongoing conflict in Ukraine – including a major spike in the price of marine diesel last year – along with significant inflation, and changed consumer habits post pandemic.

Coming so soon after the economic shocks of Covid-19 and Brexit, the resilience of the sector is going to be tested to the full during 2023 and beyond. It will require a collective effort from the

industry – backed with financial and technical support from BIM and Government - to withstand these new challenges and remain profitable.

However, the sector has shown resilience time and again, and the innovation I see in various regions and sub-sectors inspires confidence for the future. BIM remain committed to the continued provision of support and services to ensure the Irish seafood sector is remains vital, sustainable and valued.

Arachas delighted to be a sponsorship partner of Irish Skipper Expo 2023

CHARLIE CAVANAGH VERY HAPPY
TO CONTINUE PARTNERSHIP

Arachas have recently acquired *D&D Insurances Ltd*, owned by the Donnellan family, to join their Marine Specialty Team. This followed the acquisition of the *Hooper Dolan Group* in 2021 which included *Cavanagh Hooper Dolan Insurances*, who had a long association of supporting the Skipper Expo events.

We are delighted to continue that partnership and to supporting a hugely successful event this year.

The fantastic marine team that are now part of Arachas following these two acquisitions have had a long association with the fishing and marine industries. We look forward to continuing our support of the marine industry by providing a comprehensive and competitive range of products and services for our marine customers under the Arachas brand.

Arachas are now the largest nationwide insurance brokers with 14 locations nationwide and over 50 years building trusted relationships with both clients and insurance partners. Arachas is also part of the Ardonagh Group with a global network of over 100 offices and access to a wide network of advice and partners to better serve their clients' needs.

We can develop insurance packages tailored to their client's needs and can provide a 24/7/365 claims service to their marine customers. Services include a wide range of marine and general insurance products for all classes of business as well as personal products for car, van, home, health, farm and travel.

Arachas take pride in putting their customers at the heart of everything they do and strive to develop solutions to meet their customer needs.

Our dedicated marine team look forward to meeting everyone at our stand, we will be located at stand 60 to discuss the wide range of insurance products Arachas have available.

I personally have over 40 years working in the insurance industry and have strong connections with the marine industry in both my personal and professional life. I have been a member of the Irish Coast Guard for more than 36 years. Throughout my careers in both insurance and the Coast Guard, I have gained a unique insight into the varying and unique insurance needs of the marine industry and companies with ties to marine trades. This has enabled our company to provide excellent cover to suit a multitude of risks, we also use reliable high quality insurance providers to give clients a peace of mind.

I have a keen interest in keeping up to date

with the latest developments in the industry and, in doing so, ensuring that our customers are advised of the insurance covers most suitable to their individual needs.

I hope you enjoy Irish Skipper Expo 2023. We look forward to meeting you at the show.

Charlie Cavanagh (North-West Regional Manager)

BIM (Show Sponsors)

STAND 80/ BM 1

BIM returns as a main sponsor for Irish Skipper Expo 2023.

● BIM's stand this year will include live demonstrations of the digitised version of the new fisheries management chart. Up until now, the chart has been produced on an annual basis in paper form and this will continue to be the case. The printed chart and its online counterpart feature key regulations such as quota and technical conservation measures that are applicable to the fishing industry in Ireland.

Selective gear will be on display at the BIM stand and underwater footage of BIM gear trials carried out with members of the Irish fleet will play on screens throughout the show. Visitors to this year's show will also be encouraged to sign up to the Clean Oceans Initiative and BIM staff will be on hand throughout the two-days to provide support and information on fleet and training grant aid.

Easy Custom

STAND 49

● Easy Customs is a leading independent customs clearance agency, making the customs clearance process as painless and easy as possible for our customers (hauliers, importers and exporters) and removing the challenge of post-Brexit trading for our business customers

as well as private individuals.

The company was formed in 2020 with the goal of meeting the demand created by Brexit in the UK and Ireland.

Since then, we have been growing at a rapid rate, and we now have a wide network of agents all over Europe to ensure your goods move freely and legally in different jurisdictions.

As part of our onboarding process, we offer a bespoke customs consultation to understand a business' needs, working closely with all stakeholders in the supply-chain.

At Easy Customs we continue to grow and respond to the everchanging regulatory landscape keeping our clients at the fore of all we do.

IS&WFPO

STAND 34

● The Irish South and West Fish Producers Organisation IS&WFPO has a membership of 55 vessels. Due to the diversity of our membership, our members adopt a variety of different fishing practices including trawling, pelagic fishing, gillnetting, seining, dredging and potting and a majority of our members are involved in more than one type of fishing during a particular year. The Producer Organisation (POs) are recognised as important actors in the implementation of both the Common Fisheries Policy CFP and the Common Marketing Standards (CMO).

The IS&WFPO office is located at the registered address of the Company, the Pier, Castletownbere, Co. Cork and is in the South West Region IE025.

Our membership however spans from County Mayo to County Louth and therefore our area of competence extends to both the South & West Region and the South East Region.

We endeavour to implement measures to achieve and maintain good environmental status ("GES") for its waters under the EU Marine Strategy Framework Directive, by 2020. The criteria for determining GES includes the integrity of the seabed and the status of commercial fish and shellfish stocks.
