# Scottish Fishermen's Federation – Proud to Sponsor Expo 2023

ELSPETH MACDONALD, Chief Executive SFF

ON BEHALF OF THE Scottish Fishermen's Federation, I would like to extend a warm welcome to the Scottish Skipper Expo as it returns to the P&J Live Exhibition Arena in Aberdeen.

The first show at this venue last year was a major success and we sincerely hope that with many of our key commercial stocks in robust good health, giving cause for optimism about the industry's future prospects, that the same is true in 2023.

Once again, the commitment from exhibitors and other stakeholders to this show underlines just how resilient the sector is.

Unfortunately, that does not mean we do not face significant challenges. An authoritative study published by the SFF in conjunction with the NFFO shortly after last year's show warned that up to 50% of Scottish waters could be out of bounds to trawlers by 2050 if current proposals for colossal offshore wind farms and the introduction of Highly Protected Marine Areas (HPMAs) are progressed.

The SFF and other industry bodies are deeply engaged in trying to ensure the interests of fishermen are not trammelled by the offshore renewables industry and in resisting the Scottish Government's HPMAs proposals, which have at best, flimsy science behind them and clearly exist to please the Greens who sit at the Cabinet table.

Our fishermen are rightly proud of the high-quality seafood they work so hard to put

**“Up to 50% of Scottish waters could be out of bounds to trawlers by 2050 if current proposals for colossal offshore wind farms and HPMAs are progressed”**

on people's plates, and of the fact that it is an industry with the lowest carbon footprint of any major protein food producer and one wholly committed to sustainability.

Huge thanks are due to Sharon Boyle and her team at *Mara Media* for putting on such a large event specifically for the Scottish fishing industry. The SFF is once again honoured to sponsor the Scottish Skipper Expo, and hope that you enjoy your visit.

# Welcome to Scottish Skipper Expo 2023

BACK WITH A BANG AT THE P&J LIVE ARENA, ABERDEEN

NOW IN ITS 11TH YEAR, it gives me great pleasure to welcome you to this year's Scottish Skipper Expo. Whether the show forms part of your annual calendar or you are visiting for the very first time, I am confident you will have a fantastic experience.

It is wonderful to see such strong exhibitor interest in the expo, with over 165 exhibiting companies from 21 different countries confirmed to take part. After a challenging couple of years, it is important that the UK and wider international industry has a meeting place where productive business can be achieved in a friendly and relaxed atmosphere.

We are also delighted to have a number of vessels on display this year, offering visitors the opportunity to check out the features, speak to the boat builders face to face and also meet with the companies who supplied all of the products.

Sponsored by the **Scottish Fishermen's Federation**, the expo will be opened by Rural Affairs Secretary **Mairi Gougeon**, who will then tour the exhibition hall to see for herself the innovation that is the cornerstone of fishing today.

On Friday 12th May, a complimentary show reception will be held at the Douglas Hotel,

**"A strong exhibitor interest in the expo, with over 165 exhibiting companies from 21 different countries confirmed to take part"**

The Skipper team and show organisers: Noreen Boyle, Niall Duffy, Sharon Boyle and Hugh Bonner.

Aberdeen at 7:30pm. Sponsored by **Sunderland Marine**, **Commercial Oils** (Certas Energy) and **Yanmar** (Trevor McDonald), the event promises to be the perfect opportunity for everyone to relax and socialise after a busy opening day. Fresh seafood will be supplied by **Messers J. Smith Fish Merchants**, **MFV Sunrise** and **GJ Jack Seafoods**, and expertly prepared by the catering team at the **Douglas Hotel**. The event, which will feature live music, will be open to all exhibitors and their guests on an invite basis.

The organising team at Mara Media looks forward to meeting you at Scottish Skipper Expo 2023 – and we wish everyone a successful show.

**Sharon Boyle, Commercial Fishing Manager, Mara Media**

## DATES ANNOUNCED: IRISH SKIPPER EXPO 2024

**UL SPORTS ARENA, LIMERICK**

**23rd-24th February 2024**

### 'Your Industry – Your Show'

After what was hailed by many as 'a very successful Irish Skipper Expo', the dates for the 2024 Irish Skipper Expo have been announced, with the event set to return to UL Sport Arena, Limerick on Friday 23rd and Saturday 24th February 2024.

Check out the Irish Skipper Expo Facebook page and The Skipper website for upcoming announcements on accommodation deals and show reception plans in the coming weeks. <https://theskipper.ie/irish-skipper-expo/>

# Commercial Oils Buckie: Keeping The Marine Industry Moving

## SPECIALISTS IN HEAVY DUTY LUBRICANTS

**Commercial Oils Buckie and Certas Lubricant Solutions** are delighted to be returning to **Scottish Skipper Expo 2023** being held at the **P & J Live arena, Aberdeen on 12 and 13 May 2023.**

Certas is the largest lubricants and AdBlue distributor in the UK and its marine customers range from large commercial supply vessels and cruise ships to pelagic, whitefish and shellfish boat operators. Backed by the support of a dedicated technical team, customers can trust that the marine product range stands up to each vessel's design and conditions, delivering value and maximizing every engine hour.

### Your first port of call for marine lubricants

Understanding the demands placed on vessels doesn't stop at fuel which is why Commercial Oils and Certas offer a comprehensive range of high-performance lubricant solutions from top brands to keep the marine industry moving. Marine engine technology is developing at a rate of knots and engineers are under more pressure than ever to keep things moving smoothly while improving productivity and lowering operational costs.

Effective engine lubrication and preventative maintenance are one of the most important ways to support more efficient operations onboard a vessel but choosing the right lubricant can be confusing. With access to a world-leading product range including oils, lubricants, greases, and AdBlue, customers can be confident that Commercial Oils and Certas can meet the requirements to keep vessels operating reliably.

### High performance lubricant supply

At this years Skipper Expo Commercial Oils and Certas are showcasing the full portfolio of lubricants from leading global brands; Shell, Castrol and Valvoline.

**SHELL:** comprehensive range of products is designed to provide cost-effective protection for modern marine engines and shipboard machinery. Shell offer multipurpose lubricants designed to simplify on-board inventories and some specialist products as well.

**CASTROL:** offering products for fleets and shipping, from high-performance engine oils and Environmentally Acceptable Lubricants to oil and greases for ancillary equipment.

**VALVOLINE:** with lubricant solutions developed alongside Cummins and many other major OEMs, Valvoline can provide a complete package for your fishing vessel from engine oils and hydraulics through to maintenance sprays and grease.

■ Visit us on **stand 81** to find out more about Commercial Oils and Certas' reliable service, high quality products and expert advice.

## Your insurer of choice

### MARKET LEADING EXPERTS

As market-leading experts, you can trust us to provide the best possible Fishing, Coastal and other Specialist Vessels insurance. At Sunderland Marine, we build close relationships with our Clients and their representatives, so you get the right support and guidance when you need it most. We handle claims in an efficient and responsive manner, so you can minimise downtime and commercial impact when making a claim.

### EXPERT & PERSONAL

We provide hull & machinery, P&I and personal accident insurance for commercial fishing vessels, small passenger craft, tugs, barges and harbour service vessels. This includes claims resulting from injured crew and passengers or third-party property. With over 8,000 vessels covered and over 140 years of experience, we're proud to call ourselves experts and you'll benefit from exceptional personal service from day one. We have formed solid foundations and relationships and you can trust us to have you covered, whatever the future brings.

### 140 YEARS IN FISHING

In 2022, we celebrated our 140th anniversary. When Sunderland Marine was established in 1882, Queen Victoria was on the throne and fishing vessels were powered by steam. Since then, Sunderland Marine has survived world-altering events and tremendous change across the fishing industry. In these years, the company has grown from insuring just a few vessels in the North East of England to providing cover for over 8,000 vessels all over the globe.

Visit [sunderlandmarine.com](https://sunderlandmarine.com) to learn more and access a wide range of useful safety guides, briefings, posters and other resources available for free.

**Web: <https://www.scotfishmuseum.org>**

**Scottish Fishermen's Federation  
(Show Sponsors)**

**STAND 54**

■ The principal focus of the Scottish Fishermen's Federation stand will be the spatial squeeze confronting the industry as a result of the huge expansion in offshore wind power development and Scottish Government proposals for the creation of Highly Protected Marine Areas (HPMAs) which are proving to be deeply unpopular not only with the fishing industry but Scotland's coastal communities.

In addition, we will be emphasising the fact that fishing is already a climate-smart industry, with one of the lowest carbon footprints of any protein-producing sector, and vitally important for national food security. Both of the UK's governments need to recognise this. SFF safety officer Derek Cardno will also be at our stand to highlight the latest developments in this critical area.

**CONTACT Scottish Fishermen's Federation:**

**Tel: 01224646966,**

**Email: [e.macdonald@sff.co.uk](mailto:e.macdonald@sff.co.uk)**

**Web: <https://www.sff.co.uk/>**

**Scrabster Harbour Trust**

**STAND 132**

■ Scrabster's location as the most northerly mainland port makes it the ideal choice for vessels fishing the northern and western grounds. Scrabster remains a top UK landing port in the UK, with landings of whitefish and shellfish, including brown crab, lobsters, prawns and scallops. The large fish basin which contains a modern 2,000 box capacity fish market remains one of the harbour's key strengths.

Berths suitable for consignment of fish are also located close to dedicated loading bays for onward transport of catches to customers and consumers across the UK and Europe.

Scrabster Harbour is open 365 days a year when a friendly and efficient service can be expected from harbour staff and local service providers. The port offers a comprehensive infrastructure of support services including agency, fish salesmen, ice suppliers, haulage, fuel suppliers, marine engineers and electricians. Scrabster offers competitive landing dues and operates a loyalty rebate scheme for regular users.

### Shetland Islands Council

#### STAND 173

■ Scalloway and Cullivoe Harbours continue to show strong strength as leading landing ports for the rich fishing grounds to the West and North of Shetland. Their prime locations allows fishermen to save time, fuel and money while reducing their carbon footprint. Catchers achieve premium prices via Shetland Seafood Auctions for fresh, quality fish from these nearby grounds, this contributes towards excellent gained in Shetland markets.

Scalloway Harbour on the west of the Shetland Mainland offers excellent berthing, landing and services, including large net-mending areas, fuel, fresh water, transport, repairs, stores and ice. Our modern Fishmarket offers much improved capacity to all fishing vessels operating around Shetland waters. This state of the art market provides optimum facilities with catches being maintained at the highest levels of quality.

Cullivoe Harbour on the Island of Yell provides landing & resupply services. This allows vessels to get back on the grounds quickly, support services are available 24 hours a day including fuel, ice & stores. Refrigerated road transport to market facilities are available by arrangement with agents. Cullivoe is an important harbour at a national level with landing numbers in the top 15 of all UK ports.

Please visit us on stand 173 for information on our "Land In Shetland" campaign
